

DUFERCO STEEL PROCESSING

ENVIRONMENTAL POLICY

MISSION

Duferco Steel Processing provides quality flat steel products that surpass customer expectations by responsibly adding value to hot rolled coil. Our process involves the pickling, cold rolling, annealing, tempering and galvanising of steel for use in the general industry in the form of coils, sheets or slit strip. The scope of the Environmental Management System extends to all activities, products and services over which DSP has direct control, or can be expected to have an influence. At DSP we recognise Environmental Management as among the highest corporate priorities and as a key determinant to sustainable development and we strive to conduct all operations in an environmentally sound manner, whilst supplying;

PRIME, ON TIME, EVERY TIME

OBJECTIVES

ENSURING WORLD CLASS ENVIRONMENTAL STANDARDS

In order to protect the environment, we commit ourselves to pursue pollution prevention; energy and waste reduction; encourage re-use and re-cycling; conserve natural resources and to continually improve our Environmental Management System to enhance our environmental performance.

COMPLIANCE WITH LEGAL AND OTHER REQUIREMENTS

In order to fulfil our compliance obligations, we commit ourselves to employ systems and procedures that will ensure DSP's compliance with all relevant laws and other requirements pertaining to the identified scope of the Environmental Management System.

STAKEHOLDER INVOLVEMENT

In order to instil a sense of environmental responsibility amongst our people we commit ourselves to provide clear and candid environmental information about our products and operations to our interested parties.

DECLARATIONS

DSP is committed to continued excellence and leadership in protecting the local and global environment and is driven to deal with our responsibility for present and future generations by:

- ❖ Taking cognisance of environmental issues in all business strategies and initiatives;
- ❖ Adopting a transparent and sustainable environmental practice;
- ❖ Assessing the environmental impact of all our processes, materials, products and waste;
- ❖ Ensuring the availability of information and of necessary resources to achieve our environmental objectives and targets;
- ❖ Reducing energy consumption and greenhouse gas emissions to the minimum feasible levels;
- ❖ Empowering our employees, suppliers and contractors to act within the framework of this policy;
- ❖ Introducing green procurement by considering the environmental impact of products and services;
- ❖ Adopting ISO 14001 as only the minimum standard for our Environmental Management System.

We hereby commit ourselves to achieve the Objectives, Policies and Procedures of the Environmental Management System.
